EXPERIENCE

General Assembly, Washington, DC

Full-Time Web Development Immersive, October – January 2018

Student at a full-stack web development program focused on best practices in object-oriented programming, MVC frameworks, and data modeling. I developed a portfolio of JavaScript/Node/Rails based projects.

Followband

Co-Founder, August - 2016 - Present

Co-founded an ecommerce fashion company that sells custom coordinate bracelets. Made the company an emerging bracelet brand that has sold over 3,000 products in a little over a year. Developed the brand by designing the product, producing videos for the product, and designing artwork for the brand.

BAE Systems, McLean, VA

GIS Technical Intern, May – August 2015, 2016

Helped develop geospatial solutions using ESRI's ArcGIS API for BAE System's bombing prevention analysis team. Developed a new workforce planning tool to help assess company capabilities. Developed a python script to convert geospatial data into geodatabases containing shapefiles. Assisted on various proposal efforts by providing geospatial technical support.

EDUCATION

General Assembly, Washington, DC

Full-Time Web Development Immersive, October – January 2018

James Madison University, Harrisonburg, VA

BS Geographic Science and Computer Information Systems, May 2016
